Cable Lat Pulldown

TEKKEN-5001

Description

Use top-notch fitness equipment like this lat pulldown machine to get the desired result.

This pulldown gym essential has an easily adjustable thigh pad to accommodate a wide range of users.

It also features dual foot platforms for support and encourages proper alignment during the seated row movement.

Every gym house needs these high-quality equipment. We have these safe fitness equipment available at an affordable price.

Commercial Lat Pulldown Machine TEKKEN-5001 is the best Lat Machine exercise Training Machine.

All our designs are according to the human exercise physiology principle designed for complete accord with human body muscle.

As we all know, quality is the best point for a gym. We use our honesty to get a high reputation and long terms customers.

Design the machines according to the international advanced concept and improve on the original basis.

Resistance remains steady during the entire range of motion, making the movement exceptionally fluid. Pure steel weight plate enhances the product durability.

Training counting & training time recodes make the movement more scientific and humanized.

Full closed PVC covers with one time contoured to keep the user safe increases the attraction and underlines the high quality.

Unique separated movement allows the user to practice a single-arm, highlights the details and humanization of the products.

Aluminum alloy pulley, improve the durability and keep moving smoothly, it is easy to maintain.

The handle adopts TPV material, never damage and improves the durability.

Imported powder of painting, double crust clean, double lines cushion showing fashion.

A fixed low row can make the beginner's training conveniently, keep the back straight to do rowing posture motion and provide a wider range of low row muscle motion.

The integrated handle can increase the balance of arms strength.

The seat can be adjusted to the user's desired range of motion when used.

Each and every variety we offer makes it easy for members to quickly select their weight and exercise safely in a self-contained unit.

The operation is intuitive, and our high-performance designs ensure that your members are getting the most out of every set, every rep and every moment they spend pursuing their fitness goal

Product Features

- Low profile Tower design: increases social interaction and encourages an inviting atmosphere
- Superior upholstery: padded and durable for comfort User-Friendly Design
- Optimized biomechanics: controlled, natural and comfortable movement
- Striking Aesthetics
- Independent movement provides a natural path of motion, Select machines offer converging and diverging motions that encourage a natural path of motion for increased comfort and independent arm movement for superior functionality and variety.
- Hand grips allow for greater training variety, hand grips accommodate users of all sizes, Ergonomically designed, function-specific handles reduce stress on contact points to enhance user comfort.
- Counterbalanced pressing arms for optimized starting resistance
- Adjustable starting position
