## Recumbent Bike

SKU: Superfit-3006

### Commercial Recumbent Exercise Bike for Sale

- Superfit-3006(LED)
- Superfit-3006(15.6" LCD)

### Description

As a premier manufacturer of fitness recumbent bikes in China, we are proud to present the Ntaifitness® Superfit-3006, a stellar option for those in pursuit of a superior recumbent bike. The Ntaifitness® Superfit-3006 is the epitome of comfort, performance, and ergonomic design. From its contoured seat and adjustable pedal distance to the vented seat back, every aspect of this bike is tailored to ensure a seamless blend of comfort and efficiency. The intuitive computer console amplifies your workout experience, allowing you to train without undue strain on your body.

Equipped with 16 resistance levels, grip sensors, telemetry-enabled heart rate monitoring, and iPod/MP3 connectivity, this bike doesn't skimp on features. A media shelf, 3-speed cooling fan, and a top-notch computer console elevate the functionality of the Superfit-3006 to new heights.

## Commercial Upright Bike for Sale | Buy Upright Exercise Bike Online

- Superfit-3004(LED)
- Superfit-3004(15.6" LCD)

### Description

The Commercial Upright Bike Superfit-3004 stands as a premium choice among commercial upright exercise bikes. As a product of Ntaifitness®, the Superfit-3004 is a quintessential upright bike, embodying professional-grade craftsmanship and high-end features. Equipped with a fully adjustable padded seat, the Superfit-3004 is engineered to diminish fatigue throughout extended workouts. The computer-controlled flywheel, encompassing 16 levels of resistance, offers a robust and varied training experience. With 12 factory preset programs that include heart rate-focused options and fully customizable routines, users have a wealth of training possibilities at their fingertips. The bike's self-powering mechanism, using the flywheel, efficiently generates the energy necessary to operate the computer, sensors, and other integral features.

## Air Bike

---

**SKU:** Superfit-8013

## Description

The Air Bike is an exceptional tool for delivering a rigorous workout, quickly leading to exhaustion. This intensity makes it ideal for high-intensity interval training (HIIT) and conditioning. One factor contributing to its effectiveness is air resistance, and another is the simultaneous engagement of both your arms and legs during exercise.

This piece of equipment, reminiscent of past decades, has seen a resurgence in popularity. Like a traditional stationary bike, it features an air resistance system, but with an oversized fan replacing the wheel. The act of pedaling your legs while pushing with your arms not only spins the fan but also increases the resistance—the harder you work, the tougher it becomes due to the principles of Galilean aerodynamics.

Unlike typical cardio machines that primarily engage the lower body, the Air Bike stands out as a total-body trainer, much like an advanced cross-trainer. It effectively activates the upper body, ensuring a full-body workout without any "Froome-esque" vertical imbalance. It stimulates blood circulation throughout the entire body, elevating your metabolic rate and burning more calories compared to a conventional spin bike.

The Ntaifitness Air Exercise Bike Superfit-8013 transcends traditional fan bikes by automatically escalating resistance as you exert more force, push, and pedal with increased velocity, offering a virtually limitless intensity range.

With its sophisticated design, the Superfit-8013 enhances the interval training experience. It boasts a smooth ride and advanced console features that provide an intense, yet manageable workout. Users can personalize their exercise intensity, from mild, steady-state cardio targeting specific heart rate zones to explosive HIIT for a more strenuous session.

The belt-driven system of the AirBike Superfit-8013 is superior to chain-driven systems, which often require significant maintenance. Chain drives are known for needing regular upkeep, including oiling and adjustments, and tend to be noisier.

Ntaifitness products are synonymous with quality and durability, and the Superfit-8013 AirBike Classic is no exception. Designed to replicate the professional gym or box experience, it features a robust steel frame, solid steel cranks, corrosion resistance, and a sturdy aluminum seat post and slider, ensuring longevity.

Comfort has not been overlooked, as the bike is fitted with a large, anatomically-designed, and sweatproof seat for extended support. The bike's cranks are overbuilt to enhance strength and durability, reinforcing the machine's robust construction.

## Crossfit Air Exercise Bike

**SKU:** Superfit-8014

Air Bikes are revolutionizing high-intensity cardio workouts, quickly becoming a staple for HIIT enthusiasts everywhere!

Discover our selection of Air Bikes for sale. Their dual-action design orchestrates a full-body workout, engaging both your legs and arms. The dynamic air resistance system scales with your effort; the faster you pedal, the more resistance you encounter.

We guarantee only brand-new Air Bikes—no used, second-hand, or refurbished Assault Air Bikes in our inventory.

Explore our extensive Assault AirBikes online or visit us at our various showrooms to experience our collection first-hand.

At NtaiFitness, our knowledgeable team is dedicated to assisting you in selecting the ideal Assault AirBike to meet your home gym aspirations.

Air Bikes are ingeniously engineered with a large fan replacing the traditional flywheel, harnessing wind resistance that intensifies with your exertion level. Most models feature synchronized handlebars, augmenting your pedaling with arm movement for an all-encompassing workout that incinerates calories and obliterates fat.

# Commercial Upright Bike

**SKU:** Superfit-3001

## Description

The Commercial Upright Bike Superfit-3002 is unparalleled as the premier Commercial Upright Exercise Bike, providing an unmatched workout experience.

Each product in our lineup is meticulously crafted based on the principles of human exercise physiology, ensuring compatibility with the natural movement and muscle engagement of the human body.

Quality is paramount in the fitness industry, and we have committed to upholding the highest standards. Our integrity has earned us a stellar reputation and a loyal customer base that continues to grow over time.

Our extensive range includes not only state-of-the-art treadmills, spinning bikes, and rowing machines, but also steppers, elliptical machines, free weights, 3D Smith machines, power racks, CrossFit rigs, and a broad assortment of other gym essentials.
